

There are life-long advantages of straight teeth and a great smile.

Our mission is not to simply straighten our patients' teeth. Rather, the goal of our work is to increase Confidence, Self-Esteem, Attractiveness, Happiness, and Fun for children and adults. We believe our orthodontic treatment creates

Get A Great Smile For Life.™

Special education is required to be an orthodontist.

An orthodontist is a dentist, who completes additional full time university based education of at least 2 to 3 academic years. Dr. Grob has been certified by the American Board of Orthodontics, an accomplishment attained by less than 30 percent of trained orthodontists.

No referral required

Almost 50 percent of our patients that are treated by Dr. Grob were not referred by a family dentist but rather sought out treatment based on our reputation for dedicated personal care and outstanding results.

Early evaluations are suggested by the American Dental Association

Our practice joins with the ADA and the American Association of Orthodontics and strongly encourages early initial evaluations. If your child does not require orthodontic treatment at the time of your initial visit, we place them on recall and wait until treatment should be started. In fact, less than 20 percent of the patients we evaluate between the ages of 6 and 9 years old are told they "need" braces.

Special emphasis on Habits, breathing and medical concerns makes our practice special.

Our practice works closely with medical specialists, pediatric dentists and other therapists to make sure the environment surrounding your smile is balanced and healthy.

Not just for kids

Over 25 percent of the patients treated by Dr. Grob are adults. A great smile enhances careers, as well as self-esteem and confidence. In fact, new devices available today such as Invisalign and Clarity are more convenient for a busy adults schedule and so invisible you'll be the only one who knows.

Affordable

Initial evaluations are offered at no cost to you as a courtesy to your family and dentist. We offer monthly payment plans, including in office interest free financing for those who qualify and a low down payment option. We gladly accept all major credit cards, visa, MasterCard, American Express and Discover.

Dental insurance

Did you know that most of our patients with dental insurance receive an orthodontic benefit of at least \$1500 toward the cost of their braces?

Your long term commitment is guaranteed!

We at Scottsdale Orthodontic Care promise that if you do your part we will do ours to ensure that we maintain **YOUR GREAT SMILE FOR LIFE!**
